MISSION STATEMENT

Rescue For Life: Labrador Retriever Rescue is a non-profit organization, based in Orange County, NY and serving the greater Hudson Valley region. Rescue For Life functions solely through the kindness and generosity of unpaid volunteers and outside donations. Our mission is to place Labrador Retrievers in permanent, loving homes when their present owners can no longer keep them. We seek to provide less fortunate Labradors with a second chance to experience a nurturing home environment and to provide fortunate adoptive families with fulfilling opportunity to share their homes with a great pet. All Rescue For Life: Labrador Retriever Rescue dogs are spayed and neutered, vaccinated, heartworm tested and temperament assessment done prior to placement in adoptive homes.
